Undergraduate Researcher, Storrs CT

08/2017 - Present

**Student Researcher**

- Developing Big Data related projects with Dr. Sanguthevar Rajasekaran in his research laboratory.

## PROJECTS

### Sentiment Analysis

- Developed a program which identifies how positive a particular tweet is using sentiment analysis on tweets.

### Feed Forward Neural Network Analysis

- Developed a program to analyze handwritten text using different activation functions.

### UConn Transportation Application

- Developing Android Bus application with team for UConn.
- Designed and developed front-end of Android Bus application.

### PatchWork

- Developed an Android app that is used for discovering allergies at home.

## SKILLS

Java

Python

C

SQL

NoSQL

JavaScript

HTML

Bash

REST APIs

MongoDB

Git

Jenkins

AWS CloudFront

AWS S3

Docker

Kubernetes

JIRA

## AWARDS/ACTIVITIES

### New Haven Promise Scholar

Given by New Haven to New Haven residents

### SHAH RU CONN

Secretary 09/2016 - 05/2018

### Association for Computing Machinery (ACM)

Member 09/2016 - Present

### New Milford Cricket Club

Member 05/2015 - Present

## INTERESTS

Machine Learning

Big Data Analytics

Cloud Computing

DevOps
